

# Processes

A series of actions that repeatedly come together to transform inputs into outputs and results.

Permission is granted to reproduce this page for local church use.

# SYSTEM

- **The way parts are put together that leads to a particular result.**
- **FaithQuest aims to help congregations think about the way parts are put together, discover new ways to put parts together, and improve the system for making disciples of Jesus Christ in a particular location.**

# **OPTIMIZATION**

- **When all parts of a system are working well**
- **Each part of a system working in harmony with other parts**
- **Each process in a system moving toward the aim**
